

Dynamic Currency Conversion (DCC)

Good for customers.
Great for business.

Accept the **top 10**
most traded currencies,
plus over 50 more

In 2019, the United States welcomed 79 million international travelers, who collectively spent \$255 billion.* With Elavon's comprehensive Dynamic Currency Conversion (DCC), you can cater to this ever-growing, lucrative international market – offering convenience and better services to your international cardholders.

With more than 66 global currencies covered for any qualified VISA® or MasterCard® transaction, you can provide a seamless customer experience for international cardholders who want to pay in their home currency. We handle the details, so you can focus on your business.

Cardholder benefits

- Transaction cost is in their home currency, providing greater transparency
- Competitive exchange rates are offered and locked-in at the time of purchase
- Sales receipts match cardholders' statements

Benefits to you

- Earn a rebated commission on every qualified DCC transaction, gaining an additional revenue stream
- Minimize disputes and chargebacks
- Provide a better experience for your customers

Let DCC do the math for you

THE CLEAR CHOICE

International cardholders may be wary of foreign transactions because they don't know the actual cost in their home currency. DCC gives cardholders the information they need and want. It automatically identifies foreign cards at the time of authorization, clearly displaying the sale amount in the local currency, as well as in the cardholder's home currency. It also shows the conversion rate and any associated fees for a completely transparent transaction.
